Sunday: ——

Precious Hubby: ——

Received your letter yesterday in answer to my big letter — gosh! but you sure are stingy. I want a big big one, too.

Lord, dear, I am so happy when I read that things are beginning ~~to~~ to form a foundation. Because then I know you are happy and encouraged. As to Mr. Solomon, honey, I can scarcely express how grateful I am to him. In the hour of need, he proved himself a friend, and I am sure neither of us will forget it. Extend my sincerest and kindest regards to him and tell him I thank him for what he has done for you.

To-day, I am on duty, and the weather is simply wonderful. This just like June. Except for about 2 cold days since you left, we have had practically no winter. Good thing too, hun, its seems bad for the people's health. The epidemic has broken out again here too

near so bad as it was. How is it down there? Many cases of it? You say it rained 2 days? Heavens that must have been terrible. I guess, after all, there is nothing like New York's weather, what do you say?

I was delighted to hear that you got another case. Mr Lagan is certainly nice, too. After all how can they help it — my hubby — —. Did you get that bizarre case precious? Have you seen any money at all, yet? I called up Mom as soon as I received your letter telling me of your opening an office and Mom expressed her sincere wishes that it should be with Shick and Zurgel. Pop and all hands too expressed the same wish.

I called up Sue to-day. She, Rot and the baby are coming up next Sunday to see your mother. I shall be off then, and of course will be up, too. Both Rot & Sue send their best wishes to you. As soon as I get there to-day I am going to run up and see Shay. She called me up yesterday to tell me to be sure and come. Will come back to the hospital to sleep, though.

We certainly had a wonderful lunch at the hospital to-day. Delicious chicken, sweet & mashed white potatoes, asparagus, ice cream, besides soup, coffee & butter bread. The meals are really very good now — and if I should weigh about 250 lbs when you see me — don't be surprised. I do wish, hubby dear, that you could have some nice private family where you could enjoy home meals. Can't you find any such place?

I had that picture enlarged. It sure does look good. It is much larger than my photo. I should like to frame it, and thought that when

I got South, it would be nice for your private office. Did you get any pictures yet for your office? I had not time in Sofia I thought a walnut frame pretty well that sort of match the other frames? (walnut is sort of a brown wood).

Give my regard to Mr. & Mrs Dazhar, and my love to your aunt and uncle. And don't forget my message to Mr. Solomon. I hope to see them all before long.

And to my hubby — well you can give him my regards too. In case he should care for more — well there is always a heap of love and kisses waiting for him to collect. He sure is a precious dear hubby, but he must take care of himself. Don't forget.

Ever Lovingly
Your wife

P.S. Mom tells me to ask you if you took care of your insurance as she got a slip from the war risk bureau.
